**Roper Technologies announces second quarter financial results
Increases full year guidance**

Sarasota, Florida, July 23, 2026 ... Roper Technologies, Inc. (Nasdaq: ROP) reported financial results for the second quarter ended June 30, 2026.

Second quarter 2026 highlights

- Revenue increased 9% to \$2.11 billion; organic revenue was +5% and acquisition contribution was +3%
- GAAP DEPS increased 233% to \$11.62; adjusted DEPS increased 10% to \$5.38
- GAAP operating cash flow increased 16% to \$469 million; adjusted free cash flow increased 11% to \$447 million
- Repurchased 3.6 million shares for \$1.2 billion in Q2 (program to date: 9.0 million shares for \$3.2 billion)

"Roper delivered another solid quarter, with 9% total revenue growth, 5% organic revenue growth, and 11% free cash flow growth," said Neil Hunn, Roper Technologies' President and CEO. "We repurchased 3.6 million shares for \$1.2 billion during the quarter, bringing our cumulative repurchase activity over the past three quarters to 9.0 million shares or more than 8% of shares outstanding, and rolling our share count back to 2013 levels."

"We continue to accelerate our pace of AI innovation, having launched multiple new products across the portfolio this quarter that expand our addressable markets. Early adopters are seeing the value of these solutions that address complex workflow challenges. This reinforces our conviction that Roper's vertical market-leading businesses, with deep domain expertise and proprietary data, are well positioned to create differentiated value for customers."

"Given the combination of our strong first half performance, share repurchases to date, and durable customer demand for our mission-critical solutions, we are raising our full year outlook. With significant capital deployment capacity, we are focused on attractive acquisition targets that will continue compounding free cash flow per share for our shareholders," concluded Mr. Hunn.

Increasing 2026 guidance

Roper now expects full year 2026 adjusted DEPS of \$22.15 - \$22.30, compared to previous guidance of \$21.80 - \$22.05. The Company increased its full year total revenue growth outlook to 8%+, compared to a previous outlook of ~8%, and increased its organic revenue growth outlook to ~6%, compared to a previous outlook of +5 - 6%.

For the third quarter of 2026, the Company expects adjusted DEPS of \$5.75 - \$5.80.

The Company's guidance excludes the impact of unannounced future acquisitions or divestitures, proceeds from Indicor's pending divestiture of its instrumentation businesses, as well as potential share repurchases.
